

RELEASE NOTES

FAST Survey v5.07 October, 2017

- Introduction
- New Features and Changes
- Update Procedure

Introduction

Update: v5.07 has been replaced by v5.07.1.

Spectra Precision FAST Survey version 5.07 is a new version upgrade. This upgrade contains an important new feature.

To upgrade from v4 to v5, an upgrade license will need to be purchased following the instructions in the Upgrade section below. Customers with 5.03 can load the new version without need for a new registration key.

Updates

- Added Support for the Spectra Precision SP90m modular receiver.
- 5.07.1 Update was done to address an issue with configuring external radios for GNSS base receivers.

Upgrade procedure

To upgrade from v4.x to v5.x, please go to <http://www.fast-survey.com/> and follow the instructions. This is a direct purchase and will require a credit card to complete.

Registering as a FAST Survey User

The first time you start FAST Survey, you will be prompted to register your license of the software. If you do not register, FAST Survey will remain in demo mode, limiting each job file to a maximum of 30 points.

How to Register

FAST Survey registration is done via the Internet at the following address:

<http://www.surve.com/FASTSurvey>

Open FAST Survey on the handheld device and navigate to the EQUIP tab and then to the About FAST Survey choice. Select "Change Registration". You will be required to enter:

- Your company name
- Your phone number
- Your email address
- Your FAST Survey serial number
- Hardware ID Number 1
- Hardware ID Number 2
- The registration code that the program will generate

After you submit this information, your change key will be displayed and emailed to the address you have submitted. Keep this for your permanent records.

If you do not have access to the Internet, you may fax the above information to (+1) 606-564-9525. Your registration information will be faxed back to you within 48 hours. During this time, you may continue to use the program but with the 30-point restriction.

After you receive your Change Key, enter it and tap OK. You can then create a new FAST Survey job.

Saving your registration in the Data Collector

With your devices, the code is automatically and safely saved at the end of the registration procedure (no extra save operation is required).
