

What it means to be Trimble Protected

A **Trimble Protected protection plan** covers everything your original Trimble product warranty covers, *plus* several value-added enhancements. Our **Plus plan** is the only plan designed specifically for buyers of Geospatial products. A **Trimble Protected Plus plan** makes good business sense and will provide you with a worry-free ownership experience as long as you own the coverage.

Our plans go beyond the Trimble product warranty with these additional value features:

Plus Plan Features

Wear & Tear

That causes equipment to not function to specifications

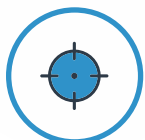

Environmental Damage

Due to dust, heat, humidity or salt air

Surge Protection

When using Trimble Power Supplies

Preventive Maintenance

Adjustments & calibration included with select equipment*

Accidental Damage

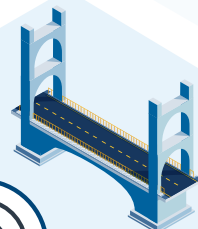

Available with Premium Plans Only
Protects against drops, spills, falls and other similar accidents for FIVE years from date of purchase.

Available in US & Canada.

Trimble
Protected

Geospatial

Benefits

Faster repairs

Minimizes downtime, improving overall efficiency

Pay nothing for parts and labor
