SPECTRA GEOSPATIAL - PROTECTION PLANS

Spectra Geospatial Protected Plus plan v. Factory warranty

Features

Spectra Geospatial Protected Plus:

A Spectra Geospatial Protected protection plan covers everything your original Spectra Geospatial product factory warranty covers, plus several value-added enhancements, as shown in the table below.

Protection plans are available on Spectra Geospatial®: GNSS, GIS, FOCUS optical, data collectors, laser products and Origin field software.

	Out-of-coverage (reinstatement)	✓	

^APreventive maintenance includes annual adjustments and calibration for eligible total stations.

Benefits

- Spectra Geospatial Protected Plus protection plans are the only plans designed specifically for buyers of Spectra Geospatial hardware, select software & firmware; they enhance and sustain your entire ownership experience with worry-free coverage.
- Our Spectra Geospatial Protected coverage entitles you to a new piece of equipment with comparable features if yours can't be fixed, or if it simply makes more sense to replace it.
- Backed by Trimble Inc. which has earned the reputation of taking care of their customers.
- A protection plan prevents incompatibility issues between the software and the hardware in the field. A software protection plan will in most cases save you time and money.
- An annual protection plan:
 - Costs less than the average repair cost
 - Locks in tomorrow's repair costs at today's prices
 - Keeps you running, minimizes unnecessary downtime and improves your overall efficiency.

Spectra Geospatial Protected protection plans make good business sense and will provide you with a worry-free ownership experience as long as you own the coverage.
