

# Monitoring Cabinet

MONITORING ENCLOSURE FOR TOTAL STATION COMMUNICATIONS, POWER, AND GNSS RECEIVER

The Monitoring Cabinet is the perfect complement to the installation of a monitoring system. All the accessories of the Settop M1 fit in a small waterproof box for quick, agile and comfortable access to them.

There are two cabinet models to suit your monitoring project needs. The Standard model is perfect for a single total station monitoring setup supporting an M1 holder, one battery and power supply. For projects requiring GNSS data, the Extended model add to the Standard model with a GNSS receiver holder, two battery holders, and an additional power supply. Additionally, both cabinet models include 2x 4G magnetic antennas to extend communication range.
